DETAILED ACTION

Applicants' response, which included amendment to claim 4 and addition of new claims 19-20, filed on 10/15/2002, is made of record.

In view of applicants' response, the following apply.

Election/Restrictions

Newly submitted claims 4-6 and 19-20 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: As per paper # 5, applicants have elected Group V wherein one of A or B or C is a nitrogen the other two CR. Examiner had examined only the elected subject matter in the previous office action, paper # 6.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 4-6 and 19-20 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

There are no claims in the case to examine at present.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Examiner would like to thank Counselor Richard Ryan for the helpful discussion regarding claim 5 and subsequent suggestion for examiner's amendment.

However, upon further consideration and lack of time, the above action was taken and no examiner's amendment was made.

Applicants should also note that the claims of parent case, which is now US 6,352,990, overlap with the instant claims.
